Let's Start!

Writing Spot: A trip to Stonehenge!

Learning Outcome

Accurately use information about travel and vacations in social situations.

Can Do Statements

- I can write a short text.
- I can write about where something is located.
- I can write about things to do on a trip.

Ask your partner:

- What would you like to see in England?
- What kind of transportation would you take?

Let's Explore!

Sally is on a tour of Stonehenge. How many **tons*** do the stones weigh? Let's find out!

* In Great Britain and Canada, this word is spelled *tonnes* . In the United States, it is spelled "*tons*".

Instructions: Read the text aloud.

Welcome, everyone, to our tour. Stonehenge is a special historical site in England. It's located in Wiltshire, about two miles west of Amesbury. It is a strange structure. There are 30 huge stones in the shape of a circle.

The ancient Britons transported the materials to the site and lifted them into position. Many of them weigh 50 tons. Across the top of every two stones, there is a third stone.

Stonehenge is about 5,000 years old.

Nobody really knows why it was built. Its origins are quite mysterious. Experts think this ancient site was created to help with astronomy. If you visit Stonehenge at sunrise, you can see that the sun always shines on the same spot at a special stone. It is an incredible place to visit!

Let's Practice!

The tour operator reads a short text about Stonehenge.

Instructions: 1: Circle the topic sentence. 2: Circle the concluding sentence. 3: Circle the sentence that describes how Stonehenge was made.

Stonehenge is a special historical site in England. It's located in Wiltshire, about two miles west of Amesbury. It is a strange structure. There are 30 huge stones in the shape of a circle. The ancient Britons transported the materials to the site and lifted them into position. Many of them weigh 50 tonnes. Across the top of every two stones, there is a third stone. Stonehenge is about 5,000 years old. Nobody really knows why it was built.

Its origins are quite mysterious. Experts think this ancient site was created to help with astronomy. If you visit Stonehenge at sunrise, you can see that the sun always shines on the same spot at a special stone. It is an incredible place to visit!

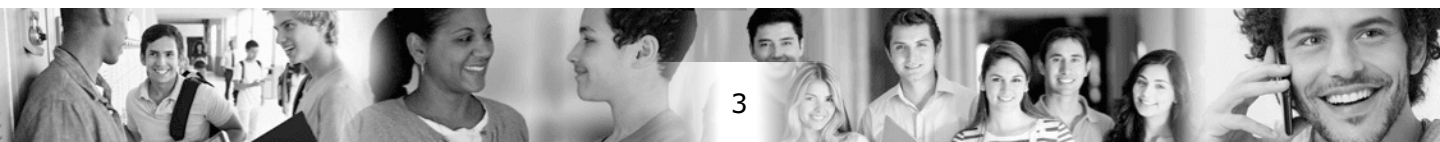

Let's Practice!

Let's use prepositions of place!

Instructions: Read the sentences. Fill in the blank with the missing word. Use: Across / at / in.

1. It's located _____ Wiltshire, about two miles west of Amesbury.
2. _____ the top of every two stones, there is a third stone.
3. If you visit Stonehenge at sunrise, you can see that the sun always shines on the same spot _____ a special stone.

Extension Activity

Imagine you are a tour director for a group of tourists visiting your hometown.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Write a paragraph about your favorite locations and attractions.
- Include a topic sentence, supporting sentences, and a concluding sentence.
- Use prepositions of place.
- Read the paragraph aloud like a tour director.

Self-Assessment

Yes

No

I write a paragraph about my favorite attractions.

☐
☐

I express locations in my writing.

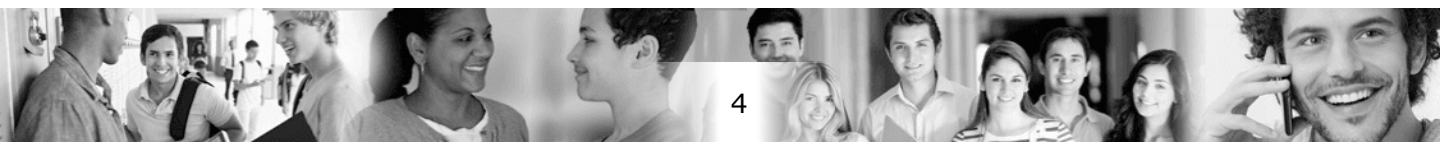

☐
☐

I read my paragraph like a tour director.

☐
☐

Target Words

- **Britons** (noun): early inhabitants of England
e.g. Some of the earliest people in England were Britons.
- **to transport** (verb): to move materials from one location to another
e.g. They believe that an ancient culture transported the stone to the site.
- **ton** (noun): a metric measurement of weight
e.g. Some of the stones weighed 5 tons!
- **astronomy** (noun): the study of the stars and galaxies
e.g. I would like to learn more about astronomy.
- **sunrise** (noun): the beginning of the day when the sun appears
e.g. I love to watch the sunrise.
- **to shine** (verb): to reflect light
e.g. The sun always shines on the same spot.

Learning Points

Prepositions of Place

You use the preposition **in** to show that something is enclosed.

You use the preposition **at** to show position within land-areas.

You use the preposition **on** to show a position on a horizontal or vertical surface.

You use the preposition **across** to show movement along or through something.

You use the preposition **between** to describe something in the middle of two things.

Preposition	Example
in	<i>in Wiltshire</i>
at	<i>at the special stone</i>
on	<i>on the same spot</i>
across	<i>across the top</i>
between	<i>between the stones</i>
